A BATTLE REPORTED.

Schley Is Said to Have Attacked Santiago.

THE HARBOR WAS FORCED.

Forts Well Inside Were Battered to a Shapeless Mass.

HAVANA GIVES INFORMATION.

It Also Appears That Cervera's Fleet Was Attacked.

IMPORTANT DETAILS LACKING.

Whether the Boasted Cape de Verde Squadron Came to the Rescue of the Forts and Purposely Accepted Battle Is Not Known.

Cape Haitien, Haiti, June 1.—Advices received from Havana at 5:15 p. m. Tuesday say that since 2 p. m. the American fleet at Santiago de Cuba had been cannonading the batteries of Morro Castle, La Zecapa and Punta Carda.

At the same time, it was added, the American ships had been engaged with the Spanish warships. The firing was extremely heavy.

At 3:45 p. m. the cannonading became less heavy against the fortifications, but was more accentuated in the locality where the fleets were engaged.

At 6:40 p. m. the Santiago cable was

COMMODORE SCHLEY, still working from Santiago.

Private messages intimated that there had been a severe fight between the American fleet and the outer fortifications and the Spanish fleet.

The fight lasted the greater part of the afternoon.

The advantage appears to have been with the Americans.

At the time of the latest advices the combat was still in progress.

Persons who climbed Lookout mountain at the entrance of Cape Haitien harbor declare they heard cannonading, low, but distinct, to the west and to the north, beyond Tortuga island.

A correspondent who was at the signal station about the same time also heard sounds resembling a cannonade.

The wind was in the right direction to carry the detonations to him.

It seems certain that the fleet the Haitien gunboat saw passing Cape May, going northward, found its opportunity of turning backward across the front of an opposing force.

Morro Castle is at the entrance of the harbor of Santiago de Cuba; La Zecapa, also shown on the maps as La Zecapa Castle, is a short distance inside the harbor entrance, and Punta Carda is situated on a point well inside the harbor of Santiago de Cuba.

This shows that the American fleet has entered the harbor, according to the Havana advices, and has engaged the Spanish fleet in those waters.

The American squadron was composed of 14 warships, of which the cruiser New York displayed the flag of Rear Admiral Sampson, and a number of torpedo boats.

The forts of Morro castle, La Zecapa and Punta Carda suffered especially. The cannonading was very persistent and cannot have failed to be destructive.

ly. The town, which is situated near the inner end of the harbor, escaped damage.

At 3:45 p. m. the cannonade diminished. About 3 o'clock cannon discharges were heard at a distance (presumably at sea), continuing for some time, when the firing ceased completely.

The Spanish authorities maintain strict silence as to the number of victims, who were apparently numerous.

Discredited in Washington. Washington, June 1.—No advices of an engagement at Santiago have reached the navy department, and the officials there discredit the report.

SUCCESSFULLY LANDED. Four Hundred Men With a Pack Train Reached Cuban Soil.

Key West, June 1.—Nearly 400 men, with a pack train and a large quantity of arms and ammunition, sailed for Guantanamo on the Plant line steamer Florida on the night of May 21.—These men and the equipment constituted an expedition able to operate independently and to defend itself against any body of Spanish troops which might oppose it.

The expedition was under the command of Colonel Jose Lacret, formerly insurgent commander in Matanzas province. He assumed the direction of affairs immediately on the landing of the expedition. Until then General Joaquin Castillo was in control.

In the landing of the expedition the United States army was represented by Captain J. A. Dorst and Tomas Estrada Palma was represented by J. E. Cartaya, who has been the landing agent of nearly every filibustering expedition for more than a year.

Messrs. Castillo and Cartaya will return to Key West. General Julio Sanguily, on the way to report to General Maximo Gomez, was also on the boat.

This is the most powerful anti-Spanish expedition ever sent to Cuba. About 300 of the men are Cubans; the others are Americans. The engineers' corps of the expedition is composed entirely of Americans, under Aurelian Ladd.

The men were dressed in canvas uniforms, furnished by the United States government, and the commissary department had rations enough to last 15 days after the landing. The pack train consisted of 75 mules and 25 horses. The expedition carried 7,000 rifles and 2,000,000 rounds of ammunition for General Calixto Garcia.

The expedition is composed of hardy young fellows, who looked fit for anything.

The expedition was landed on the coast of Cuba Thursday morning, May 26, when the Florida escorted by the Osceola drew up close to the shore at the place selected for the landing she sent scouts to see if all was clear. These scouts were greeted by Generals Feria and Rojas, with some 1,500 armed insurgents.

Consequently, far from there being any hostile demonstration upon the part of Spaniards, the landing of the expedition was in the nature of a triumphal invasion. The Cubans, who were in waiting for the party, had a brass band and welcomed the newcomers with national airs.

The work of unloading the cargo of the Florida was promptly begun and carried on by the 432 men composing the expedition. There was nothing in the nature of interruption until the work was finished on Friday.

While the Florida was being unloaded, the Osceola, an auxiliary gunboat, with her guns ready for action, scouted about the vicinity looking for an enemy, but the Spaniards apparently had no suspicion of what was taking place.

A Private's Death.

San Francisco, June 1.—Private Will W. Ray of company J, Thirteenth Minnesota volunteers, is dead of pneumonia. He was a bookkeeper for the Pillsbury Milling company of Minneapolis. Private N. C. Sullivan of company H, First Colorado volunteers, who is suffering from meningitis, is not expected to recover. Sergeant A. T. Thomas of the Utah artillery, son of ex-Governor Thomas of Utah, is ill with pneumonia at the French hospital.

Arms For Insurgents.

Hongkong, June 1.—The Philippine insurgents received last Tuesday 2,000 Mauser breechloaders and 200,000 rounds of ammunition, and have been busy ever since in getting their men together here. General Aguinaldo said that he had 500 Mausers captured from the Spaniards, which, with the rifles just received, will enable him to arm a force equal to the detachment of Spaniards now in the province of Cavite.

Regiment For Bryan.

Washington, June 1.—William Jennings Bryan, late Democratic nominee for the presidency, after all may be a

colonel in the volunteer army now being organized to drive the Spaniards out of the western hemisphere. The secretary of war authorized the governor of Nebraska to raise a regiment of infantry for the service of the government under the president's call for 75,000 additional volunteers.

Regiment Offered to Bryan. Jefferson City, Mo., June 1.—Governor Stephens in a telegram offered the command of a Missouri regiment to William Jennings Bryan of Nebraska. "In view of the fact that he (Bryan) can not lead a regiment from his own state."

Bryan's Reply. Lincoln, Neb., June 1.—Hon. William J. Bryan wired Governor Stephens of Missouri the following reply: "I am deeply indebted to you for the great honor you do me. I should be pleased to be associated in any capacity with the Missouri volunteers, but it is quite certain that all or a considerable portion of my regiment will be accepted, and I feel that my first duty is to the Nebraska boys."

Enmity of Frenchmen Admitted.

Paris, June 1.—The Journal Des Debats, commenting upon the commercial convention between France and the United States, says: "The war is undoubtedly causing much injury to our exporters, and our trade with the United States, if not entirely stopped, would certainly be materially diminished. The convention gives us advantages, mainly for the future, which we hope are near at hand, but at the same time it has special importance, inasmuch as it proves Washington is aware that, whatever may be the individual sympathies of many Frenchmen, France as a country is resolved to maintain strict neutrality."

The Friars Are Persecuted.

Madrid, June 1.—The superiors of the various missionary orders in the Philippines have sent a message to the government complaining that the friars are subject to persecution and assassination through the machinations of secret societies there and in Spain. The message further declares that the friars are willing to give their lives and property in defense of the mother country, but that if the government is unable to protect them they will be forced to abandon the Philippines.

Garcia Has a Large Army.

Key West, June 1.—Cavaliers from Cuba brought highly encouraging reports from General Calixto Garcia's army. Garcia alone, it is said, has 10,000 men, better equipped than ever before, except in the matter of clothing, and they are in excellent spirits. Five thousand men, it is added, occupy the territory along the northern coast near Manati. The Spanish troops have withdrawn to Santiago, Holguin and Manzanillo.

Trying to Anchor Their Silver.

Madrid, June 1.—The chamber of deputies has voted the law prohibiting the exportation of silver coin. It is feared the measure will fail of the effect desired. The rush on the Bank of Spain to change the notes continues. The authorities, however, have decided to treat as criminal disturbers of the peace all persons who change the notes for pure speculation or to create difficulties for the bank.

Fears She Was Captured.

Port au Prince, Haiti, June 1.—The German steamer Schleswig, which left Gonaves on May 18 for Kingston, with coal for the United States government, was to return to Gonaves May 23. As nothing has been heard here from her in nearly a fortnight, it is feared that she has been captured.

Saw American Warships.

Cape Haitien, Haiti, June 1.—A Haitien gunboat, which arrived here from Port-au-Prince with the minister of public works on board, reports that while passing the Mole St. Nicholas she saw five American warships cruising in that vicinity.

Work on the Columbia.

New York, June 1.—The disabled cruiser Columbia probably will not be able to leave the dry dock at the navy yard for 10 days at least. More than 100 mechanics are at work on the vessel, ripping off injured armor plates.

Escaped Destruction.

Port au Prince, June 1.—A report was current at Mole St. Nicholas that three of Cervera's fleet tried to steal out of Santiago and were pursued. They only escaped destruction by regaining their port.

Not a Direct Plan.

Washington, June 1.—The pope did not address himself directly to President McKinley in his plea, on behalf of Spain, for peace. It was done through Archbishop Ireland.

Washington, June 1.—The statement of the condition of the treasury shows: Available cash balance, \$199,807,462; gold reserve, \$171,922,142.

NO NEWS FROM SCHLEY

Monday Morning Brought His Last Dispatch.

PLANS ONLY CONJECTURED.

He Would Not Let Cervera Escape From Santiago.

AID WAS TO BE RUSHED TO HIM.

The President's Policy Is to Send Food to the Starving Reconcentrados as Soon as the Way Is Opened by the American Guns.

Washington, June 1.—The significant statement was made by a cabinet officer after the regular Tuesday meeting of the cabinet that no news had been received since Monday morning from Commodore Schley directly, and that now it was believed that nothing would be heard for two or three days at least.

This is taken to mean that Schley probably was awaiting the arrival of troops before undertaking any active move on Santiago.

It was plainly anticipated in some quarters that he might, through the possession of some information that would tend to neutralize the strength of the enemy's position, make a bold attempt to enter the harbor of Santiago and destroy or capture the Spanish squadron.

With the assistance of a single regiment of regular United States troops, which it is believed is even now on the way to his support, the officials are confident that the fleet can reduce the forts at the entrance to Santiago harbor and make untenable the position of the Spanish squadron within.

Of course this plan is based upon the theory that Cervera will not attempt to make his escape by a desperate sortie at night.

This movement of Schley's is unquestionably in pursuance of the president's policy to send a helping hand to the starving reconcentrados.

The Spanish squadron might be kept within Santiago harbor until the end of the war without sensibly endangering an American life, and because of its distance and isolation from Havana Santiago city has little to attract a military attack.

But lying in the very midst of the insurgent section of the island, the town would afford a splendid base for the distribution of supplies to the families of the insurgents and to the reconcentrados, who still drag out a miserable existence in the interior.

Already the president has begun providing to help these people, and the commissary general of the army has prepared an estimate of \$5,000,000 for the purchase of sufficient supplies to feed 150,000 reconcentrados for six months.

For the time being it is felt that the real field of action is removed from Washington and is centered with the troops, now advancing under orders from here, and with our ships.

The time of preparation has gone by, and it remains only for preparations to be carried into actual effect.

A leading Havana official pointed to his desk, which was clear of papers and documents, and remarked that all the preparatory details were now well along, and that so far as the authorities here were concerned they had only to wait for the execution of the preparations heretofore matured.

There will continue to be much routine detail in the maintenance of the large military and naval force, but this is now in well established channels. The more vital feature of the campaign itself has been fully matured.

To a certain extent the military and naval operations will be directed from Washington, and yet, with General Miles in the south and Admiral Sampson and Commodore Schley in Cuban waters, they will have most to do with the time and circumstance of attack.

The commanders, military and naval, have been given wide latitude, as the authorities here fully appreciate that battles can not be fought in advance on paper.

All that has been attempted is to outline a campaign, and make the fullest provision for adequate forces, ample supplies and the fullest cooperation between the navy and army in the successful execution of the plan.

The real blows are for the commanders to strike, and in the execution of this part of the program the authorities here can take little part. It is for this reason that they regard themselves now rather as spectators of what is about to occur.

The consular reports issued Tuesday contain some additional declarations of neutrality, this time from Brazil, Japan, British Guiana, St. Lucia and Gibraltar.

It is noticeable that both Brazil and Japan go out of the way of the usual formal preamble to express regret at the outbreak of hostilities between the United States and Spain.

Bermuda modifies her original proclamation of April 23 so as to make the rule relative as to supplying provisions, subsistence and coal to belligerent ships conform closely to the very severe English rules on that subject.

The Japanese proclamation is rather remarkable from the great exactness with which it prescribes the rules that are to govern Japanese subjects in their dealings with the belligerents and the treatment that will be accorded belligerent ships.

The proclamation evidently was prepared with great care and may serve as a model for the guidance of diplomats of all nations.

The board of naval bureau chiefs is trying to hasten the work of construction of the battleships authorized by the present naval appropriation bill.

The Illinois type, upon which the new vessels are to be constructed, will occupy three years in construction.

After a conference the bureau chiefs presumably with knowledge of the constructive ability of the American ship yards capable of undertaking this work, resolved to reduce the time allowed for building the new ships to a maximum of 32 months.

The navy department bought another yacht—the Inquirer—at New York, for use in the auxiliary fleet, by which the mosquito fleet will be designated, in accordance with the recently enacted act on the subject.

Other purchases are in prospect, but the final selection of the dozen vessels to be purchased from the eligible list of over 100 supplied by the examining board has not been made.

The torpedo boat Rowan, built at Seattle by Moran Brothers, has now been reported ready for trial, and instructions were sent to the department to run the trip off Friday on Puget sound.

Silver Legislation Criticized.

Madrid, June 1.—In the chamber of deputies Senor Calzado criticized the prohibition of the export of silver and silver money as being useless, and urged the government to increase the silver coinage and avert a monetary crisis. Senor Puigcerver, the minister of finance, said the measure was intended to prevent the export of the immense quantities of silver money stored in the frontier provinces, adding that if the prohibition was not sufficient stronger measures would be taken. The minister of finance also said that the Madrid mint was coining 1,000,000 pesetas daily, which amount, if necessary, he explained, will be increased by an arrangement being made with the Paris mint.

Socialist Labor Ticket.

Columbus, O., June 1.—The Socialist Labor party nominated the following ticket: Secretary of state, John F. Flynn of Canton; supreme court judge, Dan W. Wallace of Glouster; supreme court clerk, Fred Pandorf of Cincinnati; dairy and food commissioner, E. Applegarth of Maynard; member board of public works, Thomas F. Smith of Mineral Point.

Out of Harm's Way.

St. Thomas, Danish West Indies, June 1.—The German newspaper correspondent, Mr. Emersohn, who was arrested in Porto Rico, but subsequently escaped, and who was declared a spy by the alcalde of Caguas, who placed a price on his head, is reported to have reached Santa Cruz, the Danish island near here, in safety.

Kellert Not Identified.

Montreal, June 1.—The investigation into the charge against Detective Kellert of having stolen a letter from the room of Lieutenant Carranza, was commenced. Carranza was the only person examined. He failed to identify Kellert.

English Aid For Spain.

Falmouth, England, June 1.—The British steamer Remembrance has sailed for Colon with Spanish government packages and a cargo of coal, understood to be destined for the Spanish fleet.

Welded to Their Jobs.

Washington, June 1.—The United States supreme court sustains Berry, Butler and Ruckman, gaugers in West Virginia in resisting removal, as sought by Internal Revenue Collector White.

Charged With Criminal Practices.

Zaleski, O., June 1.—Dr. A. A. Bohl was arrested, while attending church with his wife, charged with performing a criminal operation on Miss Vida McBride.

Fair weather; southeasterly winds.

THAT society in New York to prevent lynching in the South ought to look into that recent case in New Hampshire, as they can get at it without having to travel so far from home.

THE signing of a reciprocity treaty with Uncle Sam is evidence that France is ready and anxious to keep in our good graces. The treaty cannot fail to benefit us in a commercial way. The particular advantages secured by the United States are on meat products and lard compounds, France reducing her rates one-half on meat products and about one-third on lard compounds. The chief benefits to France are in the reduction in rates on brandies, stilled wine, Vermuth and works of art. There is no reduction in the rate on champagnes, although the Dingley law contemplated a reciprocity reduction on champagnes in case mutual concessions were given. By the terms of the new agreement the new rates go into effect to-day.

ANGLO-AMERICAN UNITY.

The Signing of the Canadian Agreement Received With Keen Pleasure in England.

LONDON, May 31.—The Daily Chronicle, commenting upon the dispatch of its Washington correspondent as to the Canadian agreement, says:

"The news that the agreement has been signed will be received throughout the country with keen pleasure and entire satisfaction. The foundations have been laid, and we are convinced that the fabric of Anglo-American unity will reach its appropriate crown."

With reference to the probability of a protracted warfare, owing to the weakness of the insurgents in Cuba, the article continues: "The United States must act as their own high destiny bids them act. If a policy of expansion is forced on America it cannot be doubted that a period of great trial, perhaps of prolonged warfare, is before us. We have no doubt whatever of her success. No people of tougher grit ever fought for their place in the world, but it will greatly shorten and simplify their task, assisting the work of civilization, if they are assured that British diplomacy and the British navy are acting as their reserve force."

NEWS BEATS TIME.

Calls Tell of Occurrences in Manila Before They Happen.

[New York Press]

It is difficult to understand how the occurrence of a thing can be known before it has taken place, until one stops to think of the celerity of telegraphy and the motion of the earth around its axis.

The battle of Manila occurred on Sunday forenoon, and Madrid got an intimation of it several hours earlier.

If the transmission of the news had been instantaneous Madrid would have heard of it several hours before sunrise, according to our time, on Sunday morning, while the United States would have heard of it on Saturday afternoon.

The explanation of the apparent discrepancy is in the earth's rotation eastward. Every point on its surface has the sun on its meridian at 12 noon, approximately, each day, and the day at each particular point begins 12 hours earlier, or at midnight. Thus, in appearance, the sun makes a complete circuit of the earth, 360 degrees, every 24 hours, or at the rate of 15 degrees every hour. Points 15 degrees of longitude west of New York have noon an hour later than New York.

This will furnish a key to the Manila battle puzzle. Persons sailing west across the meridian line in the Pacific practically lose 24 hours.

Wheat Certain To Bring a High Price.

The Courier-Journal, in reviewing the wheat situation, says: "With regard to wheat, it is only necessary to say that values keep on the high level of the past month, and that it is plain the next crop must bring a great price, since the world's reserves are completely exhausted. The European demand has increased, the exports of wheat and flour from both coasts reaching over 4,000,000 bushels for the week."

KENTUCKY CROPS.

Agricultural Outlook in this State Decidedly Encouraging—Weekly Report of Weather Bureau.

Another week of very favorable weather for all crops has been experienced by a great majority of Kentucky farmers. Wheat is nearing maturity, with every prospect of a large yield. Tobacco plants are plentiful, large and healthy, and while in some localities rains are needed for transplanting, it is safe to say that over half the crop has been set out. Nearly all correspondents report an increased acreage in this crop. Corn is not all planted on overflowed lands, and this work will be further delayed by recent heavy rains, but the great bulk of the crop is in good condition and has generally received its first cultivation. Oats, grasses and all minor crops are promising. Gardens are backward but in excellent condition. The fruit crop, except berries, will be very short, apples and peaches continuing to fall from the trees before maturity. A few heavy rains again caused some damage to freshly plowed and planted fields, and cut worms are injuring tobacco in many localities; but considering all things, the outlook from an agricultural standpoint is decidedly encouraging in this State.

Eastern Section—Reports from this section are conflicting as to effect of weather upon crops during the past week. In the southern portion, local showers improved all soil products, and as sunshine prevailed most of the days, crops were stimulated to a vigorous growth. Corn planting was completed. In most localities corn has attained a good stand and is receiving its first cultivation. In the counties north of Montgomery and Morgan, however, but very little rain has fallen during the past two weeks. There is, therefore, general complaint of weather being too dry in this district to set out tobacco plants, and only a small portion of the crop has been transplanted. Ground is already prepared and farmers will rush the work of transplanting immediately after the first good rain. Corn is progressing well under the circumstances. It is virtually all planted and in many localities is being worked. Owing, however, to the looseness of the soil, due to a lack of moisture, corn is being damaged to some extent by moles. The irregular manner in which corn was planted has given it an uneven growth, but over the section generally this crop is regarded in fair condition. Wheat is steadily advancing toward maturity and promises an abundant yield of good quality. Gardens need rain for more rapid advancement.

THE PESKY FLIES.

Their Absence This Season Has Started Talk of Cholera—They'll Be Along All the Same.

[Cincinnati Enquirer.]

A fact that is causing a great deal of comment among Cincinnatians who have thought of it is the almost total absence of flies in this city, and here it is the last day of May. Have the buzzers gone to help fight the Spaniards, or what is the matter? In all past years to which the memory of the oldest citizen runneth back, flies have become plentiful pests in Cincinnati by the middle or last of April. Especially are the candy makers, butchers and restaurant and hotel people commenting upon the singular fact. While most people are exclaiming, "Praise the Lord!" and hoping the pesky things won't come at all, an Enquirer man found some of the older, wiser heads wagging in serious apprehension, yesterday, regarding the very singular absence of the wee troublemakers. An intelligent old butcher on Sixth street avers that the absence of flies in Southern Louisiana in the spring and early summer of 1847, 1860 and 1863 was followed by sieges of the cholera in the summer of those years.

Several other people were found who had heard of cholera appearing in summers the springs of which had been remarkable for the absence of flies. Still others had heard of epidemics of petty stomach complaints following flyless springs. The more intelligent of these people argued that the absence of flies indicated the maturing, after years of process, of a rank chemical disorder in the upper earth which proves fatal to the propagation of flies, and which, as the summer advances, increased in effect until sufficiently powerful to cause trouble to the human system. This, it was said, came about in certain localities more than others, the warmer sections of the country being most subject to experiencing the misfortune. Makers of fly screens for doors and windows told the Enquirer man that the tardy arrival of flies was costing their business thousands of dollars, as there is always a great class of people who never put up screens until driven to it.

THE MOZART CLUB.

Hayswood the Scene of Another Enjoyable Musical Recital Last Evening.

The musical recital given by the members of the Mozart Club, assisted by the members of the Primary department, last evening, was in every way quite enjoyable. The first number, a chorus entitled "Laughing Song," was sung by sixteen pretty little girls who certainly have every reason to see life from its bright side.

The second number on the program was, owing to the illness of Miss Sallie Milton Hall, substituted by a duet, "Short and Sweet," well played by Misses Frances Barbour and Pluvia Gill. A pretty valse played by Miss Haddie Cochran was followed by a beautiful selection, "William Tell," played by Misses Barbour and Worthington. Miss Pluvia Gill displayed a bright touch and easy and graceful technic as well as good shading in her rendition of two pieces, "Rabbit In the Clover" and "Bird Song."

Miss Marie Rains charmed her hearers and won much applause and two bouquets by her two songs, "Child of the Dark Eyes" and "Love's Old Sweet Song."

Little Elizabeth Barbour made a successful debut in three duets from Lebert and Stark, accompanied by Miss Moore. Miss Scottia Worthington played two charming little selections, "Woodbine Polka" by Root and "Do-Re-Mi-Fa" by Streabog.

Then followed a chorus entitled Spring. Misses Gill and Adamson gave a beautiful duet entitled Ernani by Berger.

After two very pleasing selections, "From Afar" and "At Parting," given by Miss Elizabeth Adamson, Miss Frances Barbour displayed unusual technic and musical understanding for her childish years in her rendition of Riding Song by Merkel, Landler by Lange and The Mill by Jensen. This was followed by a pleasing trio, "Welcome to Spring," by Misses Barbour, Gill and Moore.

After a short address to the audience by Dr. Hays, the program closed with a chorus entitled, "O the Sports of Childhood." The audience was an appreciative one and contributed much to the success of the evening by their continued and hearty applause. The weather was ideal.

A recital will be given by members of "The Crescendo Club" at Hayswood Seminary this evening at 8 o'clock. Public invited.

GO out to the new Electric Park at the fair grounds this evening and see the big show. The crowd last night came away greatly pleased. It's a good show—just the place to spend an evening pleasantly.

CARDS will be issued to-day announcing the approaching nuptials of Miss Elizabeth Drake Riley and Mr. William Robinson. The marriage will occur Wednesday, June 8th, at 2:30 p. m. at the home of the bride's mother, Mrs. Mary G. Riley, 480 West Second street. Miss Riley is a daughter of the late S. S. Riley, and is one of Maysville's most estimable young ladies. Mr. Robinson is a successful young farmer, only son of Mr. and Mrs. Rufus K. Robinson, of Charleston Bottom.

Strawberries!

The season is now at hand for HOME-GROWN, and as usual my house will be headquarters for the very best fruit in the market, both wholesale and retail. Also as the season advances I have arranged to have each day shipments of

CULTIVATED BLACKBERRIES, RASPBERRIES, CHERRIES, PEACHES, ETC.

The fruit will be placed on the market here on the same day it is picked, and buyers can always depend on getting the very freshest and best stock the country affords. Remember the Strawberry season only lasts three weeks, so don't put off buying until too late.

Crash Skirts at 39c.

We are showing a complete line of Linen Crash, Duck and Pique Ready-to-wear Skirts that compares favorably with the stock of metropolitan stores. We bought 'em in huge quantities at a price so as to dispose of them at quick-selling figures. The 39c. Skirt is the one you're paying 75c. for elsewhere. There are more Crash Skirts at 75c., \$1.25, \$1.49 and \$1.69, all having seven gores and lap seams. An exceptionally great value is a summer-weight Covert Skirt at 98c. Nobbiest of all is a tailor-made, white, wide welt Pique Skirt at \$1.98, having the proper hang and a perfect fit. You'll miss some sensible Skirt suggestions if you don't see our line.

Prettiness in Parasols.

combined with great values and small prices, is well illustrated here. We closed out a manufacturer's lot of Child's Parasols, made to sell at 25c., our price 19c. Some great bargains at 48c., 75c., 89c. and \$1.19, all with silk covers and superb handles. A great seller is a twenty-two-inch Ladies' Parasol, with white silk cover and wide ruffle and white spiral handle, worth fully \$1.75, our price \$1.25.

Windy Fans at Wee Prices.

Rather remarkable to bring them from far-off Japan and sell 'em at such low figures. We have a great line of "Jap" Fans at 2c., 3c., and 5c. Colored and black Fans in good sizes at 10c., 15c. and 20c. A few fancy, fluffy Feather Fans reduced to 35c. Some of Silk and Satin, with ivory trimmings, at 50c. to \$1.25. It will cost you little to keep cool.

Yellow Jaundice Cured.

Suffering humanity should be supplied with every means possible for its relief. It is with pleasure we publish the following: "This is to certify that I was a terrible sufferer from yellow jaundice for over six months, and was treated by some of the best physicians in our city and all to no avail. Dr. Bell, our druggist, recommended Electric Bitters; and after taking two bottles, I was entirely cured. I now take great pleasure in recommending them to any person suffering from this terrible malady. I am gratefully yours, M. A. Hogarty, Lexington, Ky. Sold by J. Jas. Wood, druggist.

Last Sunday's Rally.

A good number of men attended the meeting at the Y. M. C. A. rooms Sunday to hear Mr. G. S. Judd's talk illustrated by drawings on the blackboard. Mr. Judd is an earnest and interesting speaker and cleverly spoke on the subject of "The Divine Image" and what we know of God.

Prof. H. E. Gabby led the meeting and Miss Edith Berry presided at the piano with ability, the singing being most hearty.

Cool lemonade was served. The service commences next Sunday at 4 p. m. instead of 3 p. m. as heretofore. A. H. LAMB, Secretary.

Notice!

TO OUR COUNTRY FRIENDS.

It is acknowledged by all that inspected and bought the

\$6.75

PURE WOOL BLACK AND BLUE CHEVIOT SUITS

that we put on sale Friday noon is the greatest bargain we ever offered our patrons. We find that the time allotted for the sale of them is too short to give our friends throughout the county the opportunity to secure this incomparable bargain. In fact, we are in receipt of letters and verbal messages requesting a postponement of the closing of this sale. In compliance with these requests we will continue the sale of these goods until Wednesday night, provided they last until then.

We must again impress upon you that we will send none on approval, nor will we charge a single suit. When the goods are taken out the money must come in. Please spare us the embarrassment of refusing to send suits on approval or charge them. Respectfully,

At the Episcopal Council in Covington last week \$1,564 was pledged to erect a new Episcopal residence in Lexington, and \$2,000 more is wanted from the different parishes.

REV. DR. RUTHERFORD preached a very eloquent and instructive sermon at Washington Sunday night, and left for his home at Paris Monday. He was formerly the pastor of the leading Presbyterian Church at St. Louis.

A ROBERTSON County farmer lost four head of fine cattle recently in a peculiar manner. A year or two ago he left some Paris green in the hollow of an old stump, and the cattle found it and died from the effects of eating a small quantity. It is a dangerous drug to leave lying around loose.

Discovered by a Woman.

Another great discovery has been made, and that too, by a lady in this country. "Disease fastened its clutches upon her and for seven years she withstood its severest tests, but her vital organs were undermined and death seemed imminent. For three months she coughed incessantly, and could not sleep. She finally discovered a way to recovery, by purchasing of us a bottle of Dr. King's New Discovery for consumption, and was so much relieved on taking first dose, that she slept all night; and with two bottles, has been absolutely cured. Her name is Mrs. Luther Lutz. Thus writes W. C. Hammick & Co., of Shelby, N. C. Trial bottles free at J. James Wood's drug store. Regular size 50c. and \$1. Every bottle guaranteed.

COUNTY CULLINGS:

Items Picked Up by the Bulletin's Correspondents in Mason and Elsewhere.

MT. GILEAD.

Mrs. Carrie Bramel is on the sick list. Martin Courtney Bramel, who has been quite ill, is greatly improved. J. D. Bramel sold a fine mare to Sanford Carpenter, of Millersburg, for \$100. Rev. J. H. Moore who has been holding a very successful meeting here returned to Orangeburg Monday morning. Reestine Green and daughter Lottie were in Maysville Saturday, also Mr. H. C. Stone and daughter, Lizzie Clay. Miss Lizzie Enoch, who has been visiting her sister, Mrs. Mollie Bramel, returned to her home in Lewisburg Sunday. Messrs. R. T. Bradley, Omer Politt, Arthur and Pierce Politt, T. J. Goodwin, of Rectortown, were pleasant callers here Sunday evening. We now have Sunday school in our school house every Sunday afternoon at 3 p. m., and would like for every one that could to attend.

GERMANTOWN.

J. R. Walton reports liberal subscriptions to the bank stock. Mrs. Welburn is enjoying a visit by her parents from Lancaster. Miss Carrie Riggs, of Richmond, Ky., is spending her vacation with relatives here. J. T. Frazee and wife, of Flemingsburg, have been the guests of Mrs. Norris for several days. Messrs. Tucker and Pollock are in Brooksville painting the dwelling and business house of Mrs. Johnson. Decoration Day was very freely observed by a great many of our people who visited the cemetery and deposited flowers on the graves of loved ones.

PLUMVILLE.

The ice cream supper Saturday evening was a complete failure financially. Quite a number from this place attended the decoration at the Maysville Cemetery Monday evening. A. L. Redman returned home Sunday evening after a pleasant visit to his sister, Mrs. Louisa Ambrose, near Tollesboro. Mrs. A. L. Redman and daughter, Miss Rena Mae Coryell, and niece, Miss Daisy Helm, went on the excursion on the L. and N. Sunday to Lexington and were the guests of Mr. and Mrs. L. P. Fronk. I. N. Dyer, of Greensburg, and Mrs. Odessa Bean, of this place, were married Monday at 5 p. m. at the home of the bride, Elder J. H. Wallingford officiating. It was the second venture of both on the matrimonial sea.

HELANA STATION.

Miss Eva Wells is visiting friends in Fayette County. T. L. Ewan and wife, of Topeka, Kansas, are visiting Jno. Early. Miss Jessie Wells is visiting Miss Genevieve Downing at Lexington. Several from here took advantage of the excursion to Lexington Sunday. There is a prospect of a good blackberry crop this year if we could get a rain now. G. W. Geisel, of Maysville, came out Tuesday to visit his daughter, Mrs. Chas. Parry. Miss Florence Robb returned home Sunday afternoon after a pleasant visit with Miss Bessie Wells at Maysville.

LOUISVILLE TOBACCO MARKET.

It Was Very Irregular Last Week—Some Good Sales Made—The Outlook For the New Crop.

[Furnished by Glover & Durrett, Louisville Tobacco Warehouse.]

Sales on our market for the week just closed amount to 1357 hhd. with receipts for the same period 956 hhd. Sales on our market since January 1st, amount to 59,250 hhd. Sales of the crop of 1897 on our market to this date amount to 49,910 hhd.

New Burley—The chief characteristic of the market last week was its great irregularity, occasional sales being made at very satisfactory prices, while at other times the sales were dull and unsatisfactory, necessitating frequent rejections. The general tone of the market during the week has been firm for such red fillers as are selling from \$9 to \$13, while the market has been weaker on all tobacco in soft condition.

Old Burley—There has been no material change in the condition of our market for old tobacco. The offerings of such have been mainly composed of either tobacco in fuked condition or common grades. The occasional hhd. of good old leaf in sound condition that appeared on the market during the week sold at about such figures as have been current for several weeks past.

Our reports with regard to the extent of the planting are numerous and cover the entire tobacco producing districts of this and adjoining States, but it is impossible to estimate with any accuracy what proportion of the intended crop has been put on the hill, for the reason that the planting seasons have not been general. Many counties have had good rains, while other localities have had only light showers, not sufficient for transplanting. In the dark producing sections the rains have been more general and probably about 65 per cent. of the intended crop is on the hill. In the burley sections some counties have set half of the crop, while other counties have made a small start in transplanting. From the very full data before us we conclude that not more than 35 per cent. of the intended burley crop has reached the field.

The following quotations fairly represent our market for burley tobacco (1897) crop:

Trash (dark or damaged)	3 00@4 50
Common color trash	5 00@6 50
Medium to good color trash	7 00@10 00
Common lugs, not color	6 00@8 00
Common color lugs	7 50@10 00
Medium to good color lugs	10 00@13 00
Common to medium leaf	9 00@14 00
Medium to good leaf	14 00@16 00
Good to fine leaf	16 00@18 00
Select wraperry leaf	18 00@26 00

ENTIRE change of program at Fremont Park Thursday night.

Lucy, the eight-year-old daughter of Mr. and Mrs. Charles Willett, of the Fifth ward, met with a serious accident Tuesday. She was playing at the home of Mr. Oliver Greenlee, of West Third street, when she fell down a flight of steps and broke one of her legs.

—Catlettsburg Democrat: "Miss Maggie Trimble, of Maysville, is sojourning at the pleasant suburban residence of Mr. Mordecai Williams. She is the accomplished young niece of Mrs. Williams, and will remain quite a while in our midst."

CENTURIES ago, people used to fear what they called the pestilence. "Black Death" was the most terrible thing in the world to them. They feared it as people now fear the Cholera and Yellow Fever. And yet there is a thing that causes more misery and more deaths than any of these. It is so common that nine-tenths of all the sickness in the world is traceable to it. It is merely that simple, common thing constipation. It makes people listless, causes dizziness, headaches, loss of appetite, loss of sleep, foul breath and distress after eating. The little help needed is furnished by Dr. Pierce's Pleasant Pellets. One pill is a gentle laxative and two a mild cathartic. Once used, always in favor. If you are careless enough to let an unscrupulous druggist sell you something on which he makes more money, it is your own fault if you do not get well. Be sure and get Dr. Pierce's Pleasant Pellets. Send 21 cents in one-cent stamps to World's Dispensary Medical Association, Buffalo, N. Y., and receive Dr. Pierce's 1008 page "Common Sense Medical Adviser," profusely illustrated.

Fremont Park.

Another large and representative audience was at the park again last evening. The performance was better than Monday night. Everything is in ship shape now. The difficult feats of George Derious on the pedestal, the singing of Miss Grace Gilmore with pickaninny accompaniment, the banjo playing of Mr. Perkins elicited rounds of applause. The afterpiece was very funny; the whole show is pleasing and well worth a visit.

PARK FREMONT PARK

There ARE other shows! The others are around (?) Last night at 6:30 o'clock there were 500 people at the Park; at 7:30, 1,500; at 8, fully 2,000. When the curtain rose at 8:30 o'clock, there were 1,088 paid admissions, and ten minutes later there was no longer standing room, so the ticket office was closed and hundreds of people were turned away. At 10:30, the best pleased audience ever dismissed from a show of like character in Maysville. Still, we are not "the only first-class theatre in the city." Yours,

STILL BILL, THE COLONEL.

COMMISSIONER'S SALE.

MASON CIRCUIT COURT. The H. Feltman Company, et als., Plaintiffs. Against James Davis, et als., Equity. Defendants.

In obedience to a judgment and order of sale of the Mason Circuit Court, rendered in the above mentioned cause at the February term, 1898, I shall, on

SATURDAY, JUNE 4, '98,

at 2 o'clock p. m., on the premises, proceed to sell at public auction, to the highest bidder, on a credit of six, twelve and eighteen months, the following real property, to-wit:

The Captain James Davis Farm,

located on the waters of Mill Creek, in Mason County, Ky., and containing about 480 acres. A survey and plat of said farm may be seen at the office of undersigned and will be exhibited at sale. The farm will be sold in parcels or as a whole, to suit purchasers and produce the most money, and full possession given March 10, 1899, and possession for purpose of seeding next fall. This is one of the best farms ever offered for sale in Mason County; is well located; all in grass except about sixty acres; well watered; has four residences, fine barns and several other farm buildings. It is well fenced and the best producing land in Mason County. The purchaser must be prepared to promptly execute bond, with approved security, for the purchase price, which bond shall bear legal interest from day of sale until paid. J. N. KEHOE, Master Commissioner.

BE SURE.

Be sure you know the best place to buy CANDY and then go ahead. If it's ours it won't hurt you; will do you good. A little box of good candy will sweeten up a whole family. Try it.
